Thank you!

Dear Friends, Neighbors, Fellow Beef Producers,

As I reflect upon the year, it was wildly successful — personally and professionally. I'm deeply grateful to my family, my team, and our many amazing partners and customers. Moments like the one I shared with my daughter Lauren are because of all of you, and I don't take that for granted.

I want to personally invite you to our place for this year's open house and bull sale event. We'd be glad to have you look over our offering if you're in need of breeding stock. If not, we'd simply enjoy hosting you for a fall afternoon on the farm, and have you join us for a short informational meeting. We plan to review and discuss some practical considerations for selecting a bull for your herd.

I also want to thank each of you who have made purchases over the last decade, as your support has truly enabled our success. Even with the many challenges Mother Nature sends our way, I can honestly say this year has shown once again that our cattle can perform at a high level with consistency.

I will guarantee these animals will offer profit improvement to producers committed to capturing their genetic potential. Most important to us is your success as a producer, and we'll continue doing our best to support it with our service.

Hope to see you here!

Bradley (Kimberly, Blake & Lauren) Wolter

Meet Deer Valley Substance 4186:

A Windy Hill Meadows bred bull sold through Deer Valley Farm in March. Selected by Grimmius Bull Stud.

Calving ease with exceptional growth and performance.

Posted a %IMF ratio of 124 along with UREA-105.

His dam, was selected as one of the elite top-end heifer calves through a past Connealy Angus Ranch sale, and serves as a donor in the Windy Hill Meadows and Deer Valley Farm programs.

Proven genetics to produce added pounds and performance when it counts with the carcass values to hit the CAB premiums.

Better Beef Pasture to Plate.

BRED & RAISED WITH FORWARD THINKING.

GUIDED BY FAMILY VALUES.

MEET THE WOLTERS.

Blake, Kimberly, Bradley & Lauren

Imagine a scientist and an ag economist working together to completely change the way premium beef is raised. That's exactly what Bradley and Kimberly Wolter of Windy Hill Meadows set out to do more than 20 years ago.

Bradley's passion for animal genetics and Kimberly's lifelong love of animal husbandry, foodservice, and the beef marketplace came together with one shared goal: eliminate the variables that create inconsistency in beef production. Today, their children Lauren and Blake have joined their mission.

The result: an innovative, closed-loop beef program that carefully manages every step, from genetics and nutrition to animal care and traceability for...

Consistency in every generation, every animal, every bite. Starting day one.

Proprietary, Registered Black Angus GENETICS

- Detailed ancestry records
- DNA checks
- Unique lifetime IDs for each animal
- Naturally bred and raised on family farms
- Every detail planned and decision measured

Proprietary NUTRITION & FEEDING Program

- Calves nutritionally supplemented while nursing
- Graze native fescue pastures for a strong foundation
- Finished on all natural, farm-grown corn, corn silage, and soybean meal

GREAT CARE by a Network of Family Farm PARTNERS From IN, IL & MO

- Trusted network of family farm partners
- All follow high standards for genetics, nutrition, animal care & environmental stewardship

Delivering RICH MARBLING, TENDERNESS & EXCEPTIONAL FLAVOR to Every PLATE

The signature of Windy Hill Meadows Angus Beef See insert for proof of results and available cattle.

Picture of winning intermediate roast recipe from the NJAS Cookoff Contest.

Fig Jam CAB Coulotte Roast prepared by Blake Wolter and his team.

Windy Hill Meadows (WHM) Bulletin Board

Lt. Governor Visit. Lt. Governor Juliana Stratton visited Windy Hill Meadows to see firsthand how partnership, sustainability, and family-driven beef production shape the future of food.

Breaking Ground — Beef Meeting Place. A new facility for connection and education is under construction, opening early 2027. More to come.

2026 Pen Show. A strong first showing at the 2026 OK Cattlemen's Congress Pen Show — valuable lessons, great conversations, and a standout group of heifers prepared with precision and pride.

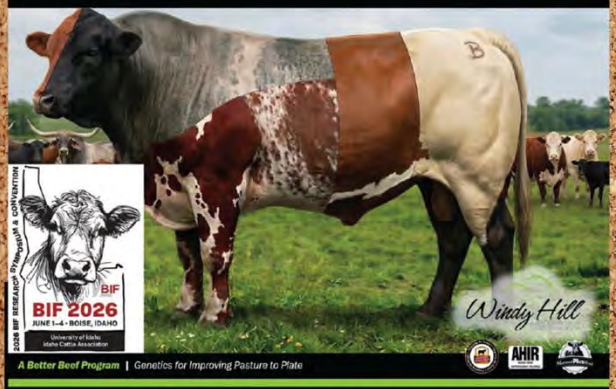
Cattlemen's Congress Debut. WHM Lady 5115 made her Congress debut — showcasing a powerhouse cow family with over 20 maternal siblings ranking in the top 15% for Angus $M and Angus $C. A pasture-to-plate cornerstone with elite genetic momentum.

Supplier to Valley Gold Meats, Nashville, TN. Craftsmanship meets quality — Valley Gold Meats showcased Windy Hill Meadows beef with precision fabrication and premium presentation.

UK Beef Industry Visit. Global perspective, local impact — our visit to Buitelaar Agriculture Group and FAI highlighted world-class Beef-on-Dairy innovation and strengthened international partnerships.

Angus Genetic Inc.'s Visit. Hosted leadership team for its long-term strategic planning dinner.

BIF Research Symposium, Leadership in Beef Improvement. Bradley delivered opening remarks at the 2026 BIF Symposium and joined the 2026–27 officer and board team driving genetic progress across the industry.



Preparation for Illinois 4-H and University of Illinois Livestock Judging. Worked with judging teams, helping them evaluate pens of bulls to prepare for the national contest in November.

Hosted Southern Indiana Cattlemen's Group. Toured the farm and talked beef genetics and production with the future of our industry.

Sustainable Beef Plant Visit. Part of the 21st Century Beef Group. We attended and enjoyed industry networking, cattle showcases, and community activities.

Illinois FFA Convention. Blake Wolter and Addison Tebbe represented Windy Hill Meadows as Star Supporters at the Illinois FFA Convention.

Visited Blackshirt Feeders in NE. This 200,000 head, state-of-the-art feedlot is designed to complete world-class research for its owners. We appreciate the relationship and opportunity to consult with them on their innovation path.

NCBA/Cattle Con 2026. Attended first Cattle Con in Nashville, TN. Connected with other cattle producers and industry partners.

NJAS PGS Show. Reserve Champion Bull. Reserve Champion Division Heifer. Decades of disciplined genetic selection on full display — eye-appeal, efficiency, and premium beef performance in one growing Angus herd.

***Progressive Cattle* Magazine Article. National Recognition.** Windy Hill Meadows featured in the September 2026 *Progressive Cattle* magazine, spotlighting our unique approach and leadership in genetics and beef production.

Vermillion Ranch Pick of Fall Bred Heifers. Partnered with Long Angus Ranch to secure Vermillion Lass 4730 to strengthen maternal power and long-term herd performance.

AHIR Data Driven Herd 2026 Silver Award. Notified Windy Hill Meadows to receive the silver level for submitting data each year to AHIR, collected on a minimum of 10 traits on a corresponding percentage of our herd. Will be recognized at November convention.

ANGUSLINK®
VALUE ADDED PROGRAMS

Added AngusLink® Program. Capturing more value for our customers — AngusLink® verification programs now integrated to help you maximize returns on registered Angus genetics.

New Herd Sire Acquisition. Partnered with Stephenson's Down T Ranch and Deer Valley Farm on new herd bull RMR Majority Rule 462 for WIndy Hill Meadows program.

A Winning Beef Recipe. Blake Wolter participated with a team to compete in the NJAS Cookoff Contest Theirs was the winning recipe: Fig Jam CAB Coulotte Roast.

Farm Family Partner & Production Expansion. Farm family partners like the Henry Family help us continue to grow, and believe in our mission. Here, we see their children, the next generation, enjoying their cattle.

Windy Hill Meadows

AAA #: American Angus Registration Number (Can be used in conjunction with American Angus Website to view the animal's extended pedigree and EPDs)

$M: Maternal Weaned Calf Value. An index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves.

$B: Beef Value. A terminal index value expressed in dollars per carcass, to predict differences in progeny due to genetics for postweaning and carcass traits. This terminal index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a carcass grid.

$C: Combined Value. An index, expressed in dollars per head that includes all the traits that make up both Maternal Weaned Calf Value and Beef Value with the objective that producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd.
